NOTE FOR: John ✓

FROM: Sheila

SUBJECT: Secretary Brown's NFIP Recommendations to Admiral Turner

Staff Work Needed for PRC(I) Meeting:

1. Out-Year Projections. Our staff should provide Turner with out-year projections of Program Managers' submissions as modified by Brown. In particular, we will be interested in seeing what happens in FY 81 under these assumptions.

2. What is not Funded Under Brown's Recommendations. Turner should have a list of any projects which Brown has forgone in order to keep his totals down. We will want to flag those which are of interest to non-Defense PRC(I) members.

3. Inconsistencies. We should flag for Turner ~~any~~ inconsistencies, *if any,* among the four programs as recommended by Brown. (This should include also any inconsistencies between his recommendations for the NFIP and what we know of his recommendations for IRA.)

4. Brown's Recommendations and Our Options. We should run a check to see if any of Brown's recommendations are beyond the scope of options we give the DCI for consideration. Where Brown's recommendations are inconsistent with the options we plan to recommend to the DCI, we should highlight our rationales for Turner.
